GENERAL INFORMATION

These guidelines are to aid the preparation of book reviews for *The Linnean*. All books received for review will be shortlisted for inclusion in *The Linnean*, for publication on our website, or both.

Books which fail to find a reviewer will be listed on our website as having been received, giving just bibliographic information. Copyright of any review submitted and published in *The Linnean* or on our website will automatically be transferred to The Linnean Society of London.

WORD COUNTS

Please use the following word counts for all book reviews:

- A brief notice should be around 350 words
- A more in depth notice should be around 850 words

(Please note: The editorial team reserves the right to edit any reviews for content, style or for not adhering to these word counts.)

CONTENT OF THE REVIEW

*Please focus on the content of the book, rather than personal views on the book’s subject.* Start with the key bibliographic information (full title and authorship, page length, publisher, date, ISBN and price):

*The Origin of Higher Taxa: Palaeobiological, Developmental and Ecological Perspectives*
By TS Kemp. 201pp, Oxford University Press, 2016, paperback.
Mono or halftone illustrations. £32.50 (Hardback £75)

Bearing in mind the word counts, your review should address the following questions:

- **CONTENT:** Why was the book written?
- **READERSHIP:** Who is the book written for and does it achieve its objective?
- **OVERVIEW:** What is the book about? Summarise the main themes only.
- **AUTHORSHIP:** Does the author have the appropriate background to give an authoritative account?
- **COMPARISON:** Are there other books on the same subject to compare it with?
- **PRACTICALITIES:** If appropriate, reference the design, pictures, index or value for money.
- **APPRAISAL:** Is it interesting, readable, and a useful contribution to the subject?
- **CONCLUSION:** Overall assessment of best and worst features, recommendations or otherwise.
